

**Job Title:**

Installer

**Expand your brand.****Job Description:**

As an installer, you will be responsible for providing high-quality installations for a variety of installation applications such as vinyl and board materials on everything from vehicles to walls and glass. Since installations at times are in a customer-facing position, you will be expected to maintain a professional demeanor and a customer-centered, service-oriented attitude, always. This attitude is how we, as an organization, set ourselves apart from our competition. By joining the LSI Graphics team, you will be joining a team of dedicated can-doers, never-quiters, and excellent-seekers who truly care about the end result of every project we encounter.

Our mission is to bring our clients' creative ideas to life through design and production innovation. We do this by hiring professionals, such as yourself, who believe in the limitless possibilities of our modern graphic solutions and who strive to deliver excellent client experiences with integrity, service, and enthusiasm. Welding experience preferred.

**In-House Wrapper Responsibilities:**

- Use appropriate methods to prep all vehicles for installation to prevent wrap failures
- Notify manager of potential issues and/or existing damage to a vehicle
- Use appropriate tools and methods to successfully wrap vehicles per the artist's renderings
- Ensure quality of workmanship
- Ensure there is a completed photo taken after the install and sent to [installs@yourlsi.com](mailto:installs@yourlsi.com)
- Ensure customer has signed off on the vehicle wrap and the work order is placed in the appropriate basket
- Keep wrap areas clean and swept
- Notify manager when nothing is going on and are available to assist another area

**On-Site Installer Responsibilities:**

- Ensure complete understanding of all projects for the day
- Ensure all parts of the project are ready for installation
- Ensure vehicle is equipped with necessary tools and other equipment for installation
- Notify manager of arrival times to each installation for the day
- Use appropriate tools and methods to successfully install wall murals, signs, decals, banners, etc.
- Ensure quality of workmanship
- Ensure there is a completed photo taken after each install and sent to [installs@yourlsi.com](mailto:installs@yourlsi.com)
- Ensure all work orders have install times and is placed in the appropriate basket

- Ensure all company vehicles are kept clean, all trash is thrown away, and tools are returned to the appropriate area at the end of each day
- Notify manager when nothing is going on and are available to assist another area

**In-House Responsibilities:**

- Ensure tool area remains organized and cleaned
- Clean the fabrication area after every project
- Assist other areas when available

**Requirements:**

- Willingness to learn and demonstrate dedication to one's craft
- Detail oriented
- Presents one-self professionally, especially when out on installations

**Working Conditions:**

- Installers work a standard work week, but will be expected to work some evenings and/or weekends to meet project deadlines
